RECESS

At 3.30 p.m., on motion of Senator Richards, the Senate recessed for the purpose of presenting an award of valor to Mr. Vernon Dupper, who saved the lives of two of his co-workers in a forest fire in Southern California.

APPOINTMENT OF SPECIAL COMMITTEE

The President appointed Senators Richards, Stiern, and Dilworth as a Special Committee to escort Mr. Dupper to the rostrum.

INTRODUCTION

Senator Richards gave the following statement about Mr. Dupper and the award:

"Today marks the third time in history of the State that the Medal of Valor award has been given. And even more unusual is the reason—the heroism for which it is given.

"Mr. Vernon L. Dupper, while a resident of Gardena in Los Angeles County and a State Forestry Department employee, last October acted far beyond the call of duty in risking his own life in a forest fire to save the lives of two of his co-workers.

"If any of you have ever seen the horrible holocausts that wage throughout our State, especially in that county from now until December, you will have some idea just what Dupper faced.

"I can only hope that Dupper's heroism will serve as the strongest possible reminder to all to protect our land from fires. For, already this year we have had more fires to this date than on any previous year.

"That fire, which burned in excess of 14,000 acres of brush, woodland and valuable watershed areas near Monrovia, was caused by children playing with matches. In this extremely dry year—driest on record so far—any carelessness may cost us lives and millions of dollars in timber, wildlife, scenic value and watershed protection.

"Our thanks and congratulations to Mr. Dupper."

14. Governor Anderson then introduced Mr. Vernon Dupper to the Senate and presented him with the Medal of Valor award. A special pin and check accompanied the award.

Also introduced by Lieutenant Governor was Mr. Raymond, of the State Forestry Department, who briefly addressed the Senate and gave his thanks and appreciation to Mr. Dupper.

When asked if he had anything to say, Mr. Dupper's only comment was, "All I can say is that I'm proud to be a state forester."

"SEC. 5. Section 19626 of the Business and Professions Code, as proposed to be added by Assembly Bill No. 1755 of the 1959 Regular Session, is amended to read: 19626. The first balance of the fund is hereby appropriated as follows:

(a) Five percent for payment to and the use of the citrus fruit fairs defined in Section 94 of the Agricultural Code, excluding any district or county fairs, for the purpose of conducting and carrying on annual citrus fruit fairs and expositions to promote and encourage the citrus fruit industry of this State.

(b) One hundred fifty thousand dollars (\$150,000) of such 5 percent is allocated annually to the citrus fruit fairs defined in Section 94 of the Agricultural Code held in counties with a population in excess of 160,000, as shown by the last federal population census. If there is but one such fair in such counties, all of such one hundred fifty thousand dollars (\$150,000) is allocated to and for the use of such fair.

(c) The balance of the 5 percent is allocated to the citrus fruit fairs defined in Section 94 of the Agricultural Code in counties with a population of less than 160,000, and to those other citrus fruit fairs and expositions in such counties with a population of less than 160,000 which have been conducted and carried on annually for not less than 20 years by nonprofit associations or corporations for the purpose of promoting and encouraging the citrus fruit industry of California.

Each citrus fruit fair held in a county with a population of less than 160,000 shall receive thirty thousand dollars (\$30,000) each year.

[(d) Any balance of the 5 percent remaining after the foregoing allocations shall revert to and become a part of the first balance of the fund.]

(d) No appropriation shall be made under this section to any citrus fruit fair or citrus fruit fair and exposition which did not receive such an appropriation prior to 1959 and the total of all appropriations under this section shall not exceed one hundred eighty thousand dollars (\$180,000) in any one year.

SEC. 6. Section 19627 of the Business and Professions Code, as proposed to be added by Assembly Bill No. 1755 of the 1959 Regular Session, is amended to read: 19627. [(a)] Forty percent, *but not more than four million six hundred and eighty thousand dollars (\$4,680,000)*, of the first balance of the fund is hereby annually appropriated for the encouragement of county, district, or combined county and district fairs (exclusive of the California State Fair and Exposition, the Los Angeles County Fair, *1-A District Agricultural Association*, the Sixth District Agricultural Association, the *48th District Agricultural Association*, and citrus fruit fairs), to be apportioned by and expended under the supervision of the Department of Finance in the manner and for the purpose prescribed by Section 92 of the Agricultural Code and other applicable provisions of law *including this section*.

[(b) No such county, district, or combined county and district fair shall receive a sum greater than sixty-five thousand dollars (\$65,000) under Section 92 of the Agricultural Code in any one year.]

The Department of Finance shall apportion the money appropriated by this section to the several eligible county, district, or combined county and district agricultural fairs on the basis of the need of each such fair for financial assistance from the State during the year for which the apportionment is to be made. No such fair shall receive such an apportionment in excess of such need as established by the department. In determining such need, the department shall take into consideration, as to each such fair, all relevant factors, including, but not limited to, the following:

(1) The approved budget of the fair.

(2) The statements of operations of the fair filed pursuant to Section 92.6 of the Agricultural Code.

(3) The amount of money available to the fair from its own resources or from sources other than the State.

(4) The propriety and amount of any reserve funds established, or sought to be established, by the fair.

(5) The maximum amount of revenue from all sources which might reasonably be expected to become available to the fair during such year, and the times within such year at which it will become available.

(6) The classification of the fair.

No such county, district or combined county and district agricultural fair shall receive an apportionment of more than sixty-five thousand dollars (\$65,000) in any one year. No such fair shall be eligible for an apportionment pursuant to this section unless it has filed, for each year subsequent to 1958, a statement of its operations during such year as provided in Section 92.6 of the Agricultural Code, irrespective of whether or not an apportionment for any such year or years is sought or made; and all such fairs shall be deemed to be subject to said Section 92.6 for all purposes.

[(c)] If in any year the sum appropriated to county, district or combined county and district agricultural fairs under this section is less than two hundred twenty thousand one hundred seventy-two dollars and seventy-nine cents (\$212,172.79), then during that year the apportionment to all fairs shall be made in the manner and upon the basis prescribed by Section 13 of Chapter 769 of the Statutes of 1933 and by Section 92 of the Agricultural Code.

SEC. 7. Section 19630 of the Business and Professions Code, as proposed to be added by Assembly Bill No. 1755 of the 1959 Regular Session, is amended to read:

19630. The second balance of the fund is hereby appropriated for expenditure without regard to fiscal years [, as follows:]

[(a) Twenty-five percent (25%) for permanent improvements or minor construction and repairs at, the support of, or the purchase of land for, the California Polytechnic School.]

[(b) Thirty-three percent (33%) for permanent improvements at, or the support of, the University of California.]

[(c) The remainder] for any of the following, in such amounts as may be approved by the State Public Works Board and allocated by the Director of Finance in his discretion:

[(1)] (a) Permanent improvements for fair purposes upon the property of [the State or] any county[,] or district agricultural association[,] fair which is subject to the provisions of Section 92.6 of the Agricultural Code, or of any citrus fruit fair defined in Section 94 of the Agricultural Code, or other citrus fruit fair and exposition qualified to receive an allocation under Section 19626.

[(2)] (b) The purchase of equipment for fair purposes of such fairs, citrus fruit fairs and citrus fruit fairs and expositions.

[(3)] (c) The acquisition or purchase of real property, including costs of appraisal and incidental costs, to be used as sites for the permanent improvements specified in [(1)] subdivision (a).

The total of all such allocations shall not exceed two million two hundred fifty thousand dollars (\$2,250,000) in any one year.

Any unappropriated money in the fund shall be transferred to the General Fund by the State Controller upon the certification of the Director of Finance in such

amounts and at such times as shall be specified in such certification. Any money in the fund required to satisfy allocations made under subdivision (c) of Section 19626 prior to the effective date of this amendment shall not be deemed to be unappropriated money.

Sec. 8. Sections 5, 6 and 7 of this act shall become operative only if Assembly Bill No. 1755 is enacted by the Legislature at its 1959 Regular Session, and in such case, at the same time as Assembly Bill No. 1755 takes effect; at which time Sections 19624 and 19626 of the Business and Professions Code as respectively amended by Sections 3 and 4 of this act are repealed.

COMMUNICATIONS

The following communications were received and read, and ordered printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF WATER RESOURCES
SACRAMENTO, May 29, 1959

*Hon. Glenn M. Anderson, President
and Members of the Senate
State Capitol, Sacramento, California*

GENTLEMEN: Senate Resolution No. 82, dated May 31, 1957, directed the Department of Water Resources to make a study and report on the feasibility of a combination water service canal and state highway to supply water to the City of Stockton and the lands adjacent to and east of the Delta of the Sacramento and San Joaquin Rivers. Such a study has been made and the report thereon is attached hereto. During the course of the study frequent consultations were held with the Division of Highways to obtain their views and comments.

The following conclusions have been reached as a result of the investigation.

1. To attempt construction of a combination water service aqueduct and state highway as proposed would not meet the United States Bureau of Public Roads standards required for acceptance of the highway into the National System of Interstate and Defense Highways.
2. To attempt combined construction would probably result in losing the financial support from the Federal Government for construction of Highway 238.
3. The City of Stockton can be conveniently served with water from several sources of supply that are being considered by the Congress for development under federal programs.
4. In crossing the Delta, it is not feasible to construct jointly a highway and a canal facility on the same, or immediately adjacent rights-of-way.
5. From the Delta southerly, it is not possible to construct jointly a canal and a highway.
6. From the Delta southerly, there may be savings effected by the Division of Highways and the Department of Water Resources co-operatively purchasing certain right-of-way parcels.
7. Inspection of the presently proposed routes from the Delta to San Luis Reservoir shows that approximately 50 percent of the owners along the aqueduct route would also be affected by the highway route.
8. Every effort is being made to effect any savings possible by co-operative efforts of the Department of Water Resources and the Division of Highways.

9. Further investigation of this matter will be continued to effect every possible saving in cost to the State and to reduce interference with operations of individual landowners encountered.

Respectfully submitted,

HARVEY O. BANKS, Director

STATE OF CALIFORNIA, DEPARTMENT OF PUBLIC WORKS

227q. Any person desiring to adopt a child who has been relinquished to a county adoption agency and who has not been placed for adoption within six months following such relinquishment, may petition the superior court to terminate the jurisdiction of the agency over the child and to permit the petitioner to adopt the child. The petition shall be verified and shall state the reasons for the proposed termination of the agency's jurisdiction.

If it appears that the best interests of the child may be promoted by granting the petition, the court shall order that a hearing be held within 10 days after the filing of the petition and shall prescribe how and to whom notice of the hearing shall be given. If the court finds for the petitioner, it shall grant the relief requested.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Cases now exist in which a county adoption agency is demanding return of a child from a foster home, though the child has been in the foster home for a substantial period and has received tender and loving care from its foster parents, and though the county adoption agency will announce no reason for its action.

It is harmful for a child to be shunted about from home to home, and this should be avoided if at all possible. At the present time, if a child is relinquished to a county adoption agency and is not placed for adoption, no person has an adequate remedy to provide a permanent home for the child, since there is nothing to prevent the adoption agency, at its unlimited discretion, from removing a child from a foster home. This act provides this remedy, and it is imperative to prevent irreparable harm, that this act go into immediate effect."

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 801.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, CALIFORNIA, May 13, 1959

*To the Honorable Members of the Senate
Sacramento, California*

GENTLEMEN: Senate Bill No. 801 is "An act to amend Sections 6006.5, 6015, 6452, and 6453 of, and to add Sections 6011.5, 6021, 6248, 6388, 6422, and 6454.5 to the Revenue and Taxation Code, and to amend Sections 146 and 186, and to add Section 148.5 to the Vehicle Code, and to amend Section 5600 of, and to add Sections 4300.5, and 4750.5 to the Vehicle Code as proposed by Assembly Bill No. 5, relating to sales and use taxes in respect to motor vehicles and to registration of motor vehicles, to take effect immediately."

Senate Bill No. 801 is a revenue measure which eliminates the present exemption of an "occasional sale" of a motor vehicle from the Sales and Use Tax Law.

The Legislative Counsel, in an opinion to Senator James J. McBride, dated April 30, 1959, holds that the revenue received under the provisions of Senate Bill No. 801 will be transferred between various funds, and this constitutes "an appropriation."

No moneys are made available for expenditure by this bill.

In these circumstances, no purpose would be served by withholding action on it pending final passage of the Budget Bill.

Pursuant to authority granted me under Article IV, Section 34, of the State Constitution, and without comment upon the merits of the bill, I recommend consideration be given to Senate Bill No. 801 prior to final enactment of the Budget Bill.

Respectfully,

EDMUND G. BROWN, Governor

LETTER OF TRANSMITTAL

SACRAMENTO, May 26, 1958

*Hon. Glenn M. Anderson, President
and Members of the Senate*

GENTLEMEN: California's burst of population growth is placing continuing strain upon existing local, state and national recreation resources. Competition for land in our developing metropolitan areas is pricing recreation off the market, as urban development consumes agricultural lands and open spaces so vital to relieving the growing congestion of these areas. With the reduction of areas available for outdoor recreation, additional pressure is being placed upon the great natural resource areas of California. All trends indicate that the pressures for outdoor recreation use will develop at a faster rate than population growth and with these pressures every suitable area containing reasonable recreation attraction will be used for recreation purposes irrespective of public development.

Your committee is concerned that these pressures will result in such intensive use of our outdoor areas that their attractiveness for recreation use and their other multipurpose use, such as timber and water production, will be destroyed. We urge that the responsible local, state and federal agencies insist that adequate planning and necessary controls be instituted in these areas with standards related to the carrying capacity of the land and cover that will control the intensities of use. The same principles should be utilized by the Division of Beaches and Parks and by the Department of Water Resources and other agencies in the field of water resource development in the preparation of park recreation and water oriented recreation plans. It appears to us only sensible that the Division of Beaches and Parks should prepare for legislative consideration feasibility type studies prior to budgetary requests or legislative authorizations for park and beach increments.

The investigations and research of this committee during the past interim has concerned itself primarily with a subject of long interest, the economics of recreation, its costs and returns and its importance as an industry. In pursuing our responsibilities under Senate Resolution No. 121 we proposed, in co-operation with the recreation and tourist industries, a factual and impartial study of the economics of this industry, its return tax-wise, and its contribution to the economic well-being of the State.

To furnish guidance and assistance in the conduct of this survey we assisted in the creation of a Citizens Advisory Committee, fully representative of the tourist and commercial recreation industry. We regret that the dedicated work of this committee went uncompleted largely because of sectional opposition and misunderstanding of the purpose of our study programs. We recommend that the study contemplated by our creating resolution be reauthorized and that this important industry and the State of California be furnished the factual data upon which intelligent public and private decisions can be made.

Continued pressure can be expected upon the commission and the Division of Beaches and Parks as demand for outdoor recreation increases. This committee submits that public and legislative pressures on this division are a sign of healthy interest in the division activities. We are certain that the legislative proposals developed partly as the result of our work will assist the division in meeting its increasing responsibilities. We are primarily concerned, however, that any reorganization at this session of the Legislature be of such nature that it will not delay the eventual integration of the recreation function or that it will not hinder the consolidation of this function into a single state agency.

Our hearings and staff investigation during the past interim indicate that while California leads the Nation in the planning and development of recreational resources at all levels, she is also leading in the build-up of recreation demands. The recommendations we make in this report deserve the consideration of the Legislature and the continued concern of this committee during the coming interim.

Respectfully submitted,

ALAN A. ERHART, Vice Chairman
Senate Interim Committee on Recreation,
State Beaches and Parks
STANLEY ARNOLD
JOHN F. MCCARTHY

Letter of Transmittal ordered printed in the Journal, and the report in the Appendix of the Journal.

Senate Permanent Fact Finding Committees

12.5. Thirteen Senate Permanent Fact Finding Committees hereinafter described are hereby created pursuant to Section 37 of Article IV of the California Constitution.

Whenever the Senate or a standing committee thereof recommends that the subject matter of a bill be referred to a fact finding committee for interim study, or a Member of the Senate requests in writing that a study be made, the Committee on Rules may assign such study to the Permanent Fact Finding Committee to which the general subject matter involved in the study has been allocated by this rule. The Permanent Fact Finding Committee to which such an assignment is made is authorized and directed to ascertain, study and analyze all facts relating to or bearing upon the subject so assigned including, but not limited to, the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating thereto, and to report thereon to the Senate, including in its reports its recommendations for appropriate legislation. When a specific study has been assigned as herein provided, the Committee on Rules may, in writing, authorize the extension of the study to any closely related subject which the Committee on Rules deems to be sufficiently connected with the matter originally assigned.

Each such committee shall consist of the number of Members of the Senate [hereinafter specified,] determined and appointed by the Senate Committee on Rules. The chairman and vice chairman of each committee shall be appointed by the Committee on Rules, except that the President pro Tempore of the Senate shall be chairman of the General Research Committee. After the first appointments are made, new appointments shall be made at the close of each subsequent general session. Vacancies occurring in the membership of each committee shall be filled by the appointing power.

Each such committee has continuous existence until such time as its existence is terminated by resolution adopted by the Senate, and each such committee is authorized to act both during and between sessions of the Legislature, including any recess.

Each such committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly and of the Standing Rules of the Senate, which provisions are incorporated herein and made applicable to said committees and their members. Except for the General Research Committee a majority of the members appointed to each committee shall constitute a quorum of the committee, and except for the General Research Committee no subcommittee shall be appointed consisting of less than a quorum of the committee.

Each such committee has the following additional powers and duties:

(a) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 5, 1959

*To the Honorable Members of the Senate
of the State of California:*

I am returning, herewith, without my signature, **Senate Bill No. 274** entitled: "An act to add Section 10177 to the Insurance Code, to add Sections 1137, 1137.1, and 1137.2 to the Probate Code, and to amend Section 13724 of the Revenue and Taxation Code and Section 381 of the Probate Code, relating to testamentary trusts of life insurance proceeds."

Senate Bill No. 274 permits the designation of testamentary trustees as beneficiaries of life insurance policies, and provides that up to \$50,000 of such insurance shall be exempt from inheritance taxation.

At present, the proceeds of any life insurance policy payable to the estate, executor, administrator or personal representative of the insured, or to a trustee who

receives the insurance proceeds to the extent that the proceeds are used for the benefit of the estate, are subject to the inheritance tax.

There is no reason why insurance payable to a testamentary trustee should be exempt, and that payable to an executor or administrator be taxable. The disposition in such case is directed by the testator through the terms of his will.

Should this bill become law, it would create another exemption under the inheritance tax law, and open up a loophole by which testators could obtain an additional exemption. Every state, at present, taxes the proceeds of life insurance policies which are *payable to the estate*. At a time when the administration is seeking additional revenue, including that from inheritance taxes, it would not be consistent to approve this measure which would permit a further exemption thereunder.

I am, therefore, returning Senate Bill No. 274 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Message read.

Senate Bill No. 274 ordered to the unfinished business file.

Our Father, We read in Holy Scripture that "there is a time for every purpose under the heavens." So it is—a time for beginning and a time for ending; a time to sing and a time to dance; a time to weep and a time to laugh; a time to keep quiet and a time to talk; a time to work and a time to play. Good Lord, we have used up all the time for singing and dancing, and we have left only time to work, along with some laughter. We pray that we may be physically, mentally, and emotionally up to the demands of the next few days, that there may not be cause for weeping by our constituents. AMEN.

Bill read second time.

Motion to Amend

Senator Williams, moved the adoption of the following amendments:

Amendment No. 1

On page 1, line 18, of the printed measure, after "State", insert "between the State and any city, county, city and county, or public district or agency".

Amendment No. 2

On page 1, after line 23, insert

"In the future development of the water resources of the State by any entity, no area in which water originates shall be deprived, by reason of such development, of any quantity of water needed to satisfy the reasonable ultimate requirements of such area. For each state water project authorized, the Legislature shall define the area

for which reservations are made, and with respect to permits and licenses to other entities the agency established by law for administering water rights shall define the area for which reservations are made. Only water in excess of reservations determined by the Legislature to be necessary to effectuate this policy shall be made available from a state water project for permanent use in any other area of the State. The foregoing provisions of this paragraph shall be given effect solely by the making of adequate reservations of water by the Legislature with respect to state water projects and by the agency established by law for administering water rights in granting any permits and licenses to any other entity to appropriate water. Water so reserved shall be available exclusively for appropriation in accordance with law for beneficial uses in the area for which reserved. Reservations so made by the Legislature may be revised by it from time to time, and reservations made by the agency established by law for administering water rights may be revised by it from time to time; provided, that in neither case shall vested rights be impaired by such revision.

This section is not intended to, and shall not affect any vested water rights or permits to appropriate water heretofore issued by the State Water Rights Board or its predecessor.

The California Water Fund is created as a special fund in the State Treasury, the moneys, securities, and increment of which shall be held in trust by the State Treasurer for expenditure as provided in this section when appropriated by law with two-thirds of all members elected to each house of the Legislature voting in favor thereof.

There shall be deposited in the California Water Fund:

(a) All revenues received by the State from the extraction of oil and gas from tide and submerged lands and state public lands in excess of seventeen million dollars (\$17,000,000) in each calendar year, over and above the cost of administration of all such lands and any refunds authorized by law;

(b) The total revenues over the cost of operation and maintenance and service of any indebtedness of any state water development project, or in the case of a joint project, the portion of such revenues to which the State is entitled;

(c) Four million dollars (\$4,000,000) each month from the first revenues received in the General Fund after the setting apart of the moneys required to be applied by the State to the support of the Public School System and state university;

(d) The proceeds of the sale of any state bonds issued to provide funds for water resources development; provided, however, that if the bonds are authorized for the purpose of providing funds for the cost of designated facilities, the proceeds of the sale thereof, when deposited in the California Water Fund, shall be used for that purpose and no other;

(e) All money in the California Water Fund created by Chapter 140 of the Statutes of 1959;

(f) Any other funds made available solely for the purpose of the California Water Fund by appropriation, gift, or any other means.

At any time, the Legislature may by statute revise the amounts required to be deposited in the California Water Fund under subdivisions (a) and (c) above.

Any money in the California Water Fund may be expended solely for construction, operation, and maintenance of water resources development projects; except that amounts required to be deposited in the fund under subdivisions (a) or (c) above may be appropriated by the Legislature, by a vote of two-thirds of the members elected to each house, for other state purposes. Such appropriation shall not be for more than one year, and any money so appropriated which is not expended or encumbered within the one-year period for which appropriated shall revert to the California Water Fund.

The money in the California Water Fund may be invested and reinvested as may be provided by the Legislature, and any interest accruing or other increment derived from investments shall be deposited in the fund and shall be available for expenditure as provided in this section.

Notwithstanding the provisions of Section 1 of Article XVI hereof, the Legislature may provide for the issuance and sale, from time to time, of general obligation bonds of the State in a total aggregate amount not to exceed five hundred million dollars (\$500,000,000), the proceeds from which shall be used exclusively for the construction of the Feather River Project, which project shall consist of the units set forth in publication of the State Water Resources Board entitled "Report on Feasibility of Feather River Project and Sacramento-San Joaquin Delta Diversion Projects Proposed as Features of the California Water Plan," dated May, 1951, as modified in the publication of the Division of Water Resources entitled "Program for Financing and Constructing the Feather River Project as the Initial Unit of the California Water Plan," dated February, 1955, and including the upstream features set forth in Chapter VI of the 1955 report, except the features on the south fork of the Feather River, subject to such modifications thereof as the Department of Water Resources may adopt. Bonds shall be issued from time to time in amounts sufficient to provide for the completion of such project so as to enable the delivery of water in Northern, Central, and Southern California, and

contracts may be entered into with any public or private entity or entities therein as provided by law.

Amendments read, and adopted.

MOTION TO PRINT REPORT OF SENATE INTERIM COMMITTEE ON METROPOLITAN AREAS

Senator Richards moved that the following report of the Senate Interim Committee on Metropolitan Areas be printed in the Journal.

Motion carried.

SENATE INTERIM COMMITTEE ON METROPOLITAN AREAS CALIFORNIA LEGISLATURE, June 8, 1959

*Hon. Glenn M. Anderson, President
and Members of the Senate*

GENTLEMEN: Pursuant to Senate Resolution No. 153, adopted in the 1957 Regular Session, your Senate Interim Committee on Metropolitan Areas began a study of the problems connected with the explosive growth of the principal urban regions in California to determine wherein it may be possible to effect a more efficient organization of local government in those regions.

The task was undertaken in the knowledge that the problem of metropolitan organization is so broad and complex in its many ramifications that any study of this nature is a long-term program at best.

Because of this breadth and complexity, no detailed report is planned at this time, since our study has not yet advanced to the point where the committee is prepared to recommend specific legislation based upon it.

Although the public hearing method is not particularly suited to this type of study, it was thought appropriate on at least one occasion to hold such hearings on the subject of local taxation in Los Angeles County.

This was at a time when the public was seriously disturbed at a sharp increase in property taxes, and a primary objective of the hearing was to determine how assessment is handled on the local level for the purpose of taxation. At the same time, an effort was made to estab-

lish whether or not there might be an overlapping in certain functions of local governmental agencies.

To get accurate information along these lines, the committee went directly to the source and heard from representatives of the principal taxing agencies affecting Los Angeles County.

Witnesses who testified at the hearing, which was held in the State Building in Los Angeles, on December 23, 1957, were:

Hon. Everett G. Burkhalter, City Councilman, representing the Los Angeles City Council; Hon. John R. Quinn, County Assessor, Los Angeles County; Dr. Hugh C. Willett, President, Los Angeles City Board of Education; Mr. Ellis A. Jarvis, Superintendent of Schools, and Mr. Jack P. Crowther, Associate Superintendent; Hon. John Anson Ford, Chairman, Board of Supervisors, Los Angeles County; Mr. L. S. Hollinger, Chief Administrative Office, Los Angeles County; Hon. Chester G. Jaeger, Mayor, City of Claremont, representing the Committee of Mayors of Los Angeles County; Hon. Robert G. McDavid, Chairman, State Board of Equalization; and Mr. Dixwell L. Pierce, Secretary, State Board of Equalization.

Several avenues of inquiry were opened up as a result of the testimony presented at this meeting. These are being explored with a view to the correlation of the information thus obtained with other facets of the study which are still being developed.

The problems connected with metropolitan growth beyond conventional city and county boundaries are now the subject of extensive scrutiny on many levels and in many parts of the world. In the United States and Canada some urban areas are already experimenting with metropolitan governmental organizations, or are preparing to adopt them.

From both these sources a considerable body of information is being accumulated, so that contact with other study groups and agencies of government is especially desirable in the conduct of an inquiry such as your committee has undertaken.

With this in mind those members of the committee who were able to be present participated in a two-day Conference on Metropolitan Problems sponsored by the University of California in Berkeley on July 24 and 25, 1958.

Representatives of cities and counties of the three coastal states; state officials and legislators; members of specific metropolitan study groups and research and survey institutions; business executives; and specialists from the Universities of California, Washington and Oregon, were in attendance at panel discussions and in general sessions during the two-day meeting.

The particular concern of your committee was to gather information and ideas upon which to base a determination of the extent to which the State should participate in the solution of the problems of its urban regions where some area-wide organization might be evolved.

On the local level, local problems are being appraised by such bodies as the Sacramento Metropolitan Government Committee, the Fresno Metropolitan Study Committee, and the Metropolitan Area Government Study Commission of Los Angeles.

Some of these groups are already well advanced in their studies of problems affecting their own particular regions, and have made recom-

mendations to their local governing bodies. Certain of their conclusions will undoubtedly reveal areas where it may be feasible for the State to participate by way of general legislation.

At the present writing, state participation would appear to be indicated, first, in an appraisal of the adequacy of our present systems of local government. A second step would be the enactment of permissive legislation authorizing the creation of metropolitan units that will be adequate as to functions, financial ability, and control by the people who reside in the areas affected. Related to this, a third step would be the adoption of methods to be used in putting the metropolitan units into operation.

Some beginnings have already been made in a multicounty approach to such problems as air pollution control, but these have also indicated the degree of resistance still to be expected to any considerable extension of this pattern. It would therefore appear that of almost equal importance to a development of metropolitan forms of government is the education of the public to the possibilities of greater efficiency and economy to be obtained by this means.

On March 29, 1959, Governor Edmund G. Brown announced the creation of the Governor's Statewide Commission on Metropolitan Problems. The specific objective of this commission is to examine the whole range of urban problems and the role of each of the various levels of government in solving them.

The Governor has declared that he would welcome the co-operation of a committee of the Legislature in pursuing the study projected for this commission. Your Committee on Metropolitan Areas agrees with this view. It is suggested that the Senate, in particular, should devote specific interim consideration to the furtherance of co-ordinated legislative-administrative study in this important field.

Respectfully submitted,

RICHARD RICHARDS, Chairman
NELSON S. DILWORTH

TELEGRAM

June 4, 1959

Hon. Carley V. Porter

Member of the Assembly, Sixty-ninth District

Room 2114 State Capitol

Sacramento, California

We are today mailing you a letter which will read as follows:

You have requested our opinion on the following two questions relating to Senate Bill No. 1106, as amended in the Senate on May 28, 1959, which would create the California Water Resources Development Bond Act.

1. Could the Legislature impair the contracts described in proposed Water Code Section 12937(b)4 or, phrased differently, would the provisions of Section 12937(b)4 prevent the application of the principle stated in *Mallon v. City of Long Beach*, 44 Cal. 2d, 199, 208-209?

2. Could the Legislature pursuant to proposed Section 12931 amend the present provisions of state law designed to protect counties and areas of origin, e.g. Water Code Sections 10505 and 11460-11463?

Our conclusions are:

1. The Legislature could not impair the contracts described above.

2. The Legislature could amend the described or any other provisions of present law provided such amendment did not impair the contracts.

I.

Section 12937(b)4 would provide in part:

"The Department, subject to such terms and conditions as may be prescribed by the Legislature shall enter into contracts for the sale, delivery or use of water or power, or for other services and facilities, made available by the State Water Resources Development System with public or private corporations, entities, or individuals. Such contracts shall not be impaired by subsequent acts of the Legislature during the time when any of the bonds authorized herein are outstanding and the State may sue and be sued with respect to said contracts. Said contracts shall be for a stated term and, insofar as practicable and feasible, for the full term of the life of the general obligation bonds issued under this chapter and each such contract shall recite (1) That it is entered into for the direct benefit of the holders and owners of all general obligation bonds issued under this chapter, and (2) That the income and revenues derived from such contracts are pledged to the purposes and in the priority herein set forth. Such pledge of revenues as herein set forth is hereby declared to be and shall constitute an essential term of this chapter and upon its ratification by the people of the State of California shall be binding upon the State so long as any general obligation bonds authorized hereunder are outstanding and unpaid. Such income and revenues, subject to the priorities herein set forth, shall constitute additional security for all of the bonds authorized and issued hereunder irrespective of the date of their issuance and sale and so long as any of the bonds authorized and issued hereunder, or the interest thereon, are unpaid, such income and revenues shall not be used for any other purpose."

We believe that the word "impair" in the second sentence quoted above is used in the same sense that it is used in United States Constitution, Art. 1, Section 10, Clause 1, and California Constitution, Art. 1, Section 16.

"The obligations of a contract are impaired by a law which renders them invalid or releases or extinguishes them * * * and impairment * * * has been predicated of laws which without destroying the contracts derogate from substantial contractual rights." (Corwin, Constitution of the United States of America, S.D. 170, 82d Cong., 2d Session, 332-333 (1952)).

The contracts with public corporations and entities will be protected against impairment during the life of the bonds because they are part of the essential security of the bondholders. The contract between the State and its bondholders would be secured against impairment by the State and Federal Constitutions whether or not the statute so provided.

Since the essentially protected contract is that between the State and the bondholders, the Mallon case is irrelevant. That case deals only with a contract between the State and one of its agencies of local government, which contract was not pledged to secure obligations to private creditors.

The revenue derived from the water deliveries is pledged as "additional security" for the bonds. Action by the State, during the

period the bonds are outstanding, designed solely to derogate from this element of security, would also be precluded by the constitutional provisions cited above even though the statutes said nothing. These revenues are part of the bondholders remedies and their remedies are protected (Corwin, *supra* 354, against actions of the State which will render them less effective (ID., 356-357).

II.

The above generalities will be clarified by the following:

The law existing when the contract is made is read into the contract (Corwin, *supra*, 333). Thus the existing laws protecting areas of origin will be part of the contracts. Except as limited by these existing laws, the use of water allowed by a contract seems analogous to a grant of property for a term. A grant is protected as is a contract and is "attended by an implied contract on the part of the grantor not to claim again the thing granted" (Corwin, *supra*, 336).

From this we conclude that the grant is part of the bondholders security. This security could not be diminished by amending the protections of counties or areas of origin to make them more stringent and thus curtail the amount of water available to satisfy prior contracts. However, the protection laws could be made less stringent or repealed, since it is not essential to the bondholders security that the existing protections of non-contracting areas be maintained.

Notwithstanding the provisions of the bill and despite the protection granted the bondholders, "The reservation of essential attributes of sovereign power is also read into contracts as a postulate of the legal order" (Corwin, *supra*, 333). This is the doctrine of inalienable state powers (ID. 349). Thus the State could by eminent domain paying proper compensation recapture waters otherwise subject to delivery (ID. 350), and could continue to make those regulations concerning use of water which are properly within its police power and consistent with due process of law (ID. 351).

LEGISLATIVE COUNSEL OPINION

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, June 9, 1959

Hon. Joseph A. Rattigan
Senate Chamber

Employment of Attorneys by School Districts (Assembly Bill No. 368,
as Amended March 30, 1959)—No. 16927

DEAR SENATOR RATTIGAN:

Question

You ask if the enactment of Assembly Bill No. 368, as amended March 30, 1959, would restrict school districts to the employment of an attorney in private practice for litigation only under the terms of Assembly Bill No. 368, and would abolish the existing authority of school districts, under Government Code Section 53060, to employ private counsel not only for litigation but also for legal opinions. You state that many districts now employ private attorneys for litigation and opinions under Government Code Section 53060.

Opinion

In our opinion, the enactment of the bill would not prevent a school district from contracting with a private attorney for legal opinions pursuant to Section 53060.

Analysis

Assembly Bill No. 368, as amended March 30, 1959, would authorize the governing board of a school district to contract for the services of an attorney in private practice to prepare and conduct school district litigation, or to assist it in the preparation and conduct of school district litigation.

Section 53060 of the Government Code provides:

"The legislative body of any public or municipal corporation or district may contract with and employ any persons for the furnishing to the corporation or district special services and advice in financial, economic, accounting, engineering, legal, or administrative matters if such persons are specially trained and experienced and competent to perform the special services required.

"The legislative body of the corporation or district may pay from any available funds such compensation to such persons as it deems proper for the services rendered."

At the outset it should be noted that we do not believe that Section 53060 would be construed by the courts as an unqualified authorization to school districts to contract with a private attorney for legal services. We believe that Section 53060 allows a school district to enter such a contract only when the district attorney (or county counsel is disqualified or refuses to represent the district or where some unique or special skills are necessary to render services which cannot be rendered by the district attorney or county counsel. (See 20 Ops. Atty. Gen. 21; 19 Ops. Atty. Gen. 153; *Skidmore v. West*, 186 Cal. 212, 215.)

If Assembly Bill No. 368 is enacted, we do not believe that a court would conclude that Section 53060 is impliedly repealed insofar as that section authorizes a school district to contract for special legal services. Repeals by implication are not favored by the courts and a statute containing no repealing clause does not repeal a prior act except so far as the two are clearly inconsistent, or unless it appears that there is no possibility of concurrent operation or that one act is a complete revision of the earlier act (*Oakland v. Hogan*, 41 Cal. App. 2d 333; *People v. Fitzgerald*, 14 Cal. App. 2d 180). When possible the courts will construe two statutes so as to give effect to both (*Penziner v. West American Fin. Co.*, 10 Cal. 2d 160). There is no irreconcilable conflict between Section 53060 and the provisions proposed by A.B. 368. The bill would authorize a school district to contract for the services of a private attorney in connection with any school litigation, and to this extent would supersede Section 53060. In other words, the authority of a school district to contract with a person for legal services consisting of the preparation and conducting of school district litigation would no longer be subject to the restrictions that the services of the district attorney or county counsel are not available or that some special or unique skill is required in the particular litigation. Section 53060 would still be the source of the authority of a school district to contract for legal services on other matters not involving the preparation and conduct of litigation where some special or unique skill is required or where the services of the district attorney or county counsel are not available.

Very truly yours,

RALPH N. KLEPS

STATEMENT BY SENATOR BROWN

Each year I have been fortunate enough to have sponsored a boy from my district, to assist on the Senate Desk, under the able direction of Mr. J. A. Beek, Secretary of the Senate, and each year the boys have brought honor to themselves and to the schools of my district in that they all have been awarded scholarships.

I would like to tell the Members of the Senate, that I am very proud of the boy who has been filling the position of Assistant Clerk on the Senate Desk this year—Mr. Ralph J. Fear of Lone Pine, in Inyo County. Ralph has been an A student all through his school work and while in Sacramento he has kept up his work at the Sacramento Junior College during his spare time. Ralph is the son of Mr. and Mrs. Fear, Sr., of Lone Pine and we have been friends of his family for many years.

I feel that Ralph's record is an outstanding one, in that he has been awarded a \$3,600 scholarship from the Scholastic Sports Association under the direction of the Los Angeles Examiner. I feel that his record is a reflection of our fine California schools and we all share this honor with him. I feel that this is a big accomplishment for a young man starting his career and I am sure the good wishes of all Members of the Senate will go with him on his pursuit of higher learning.

LEGISLATIVE COUNSEL OPINION

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

3021 STATE CAPITOL, SACRAMENTO 14, June 10, 1959

Hon. James A. Cobey

Senate Chamber

Community Recreation—No. 17315

DEAR SENATOR COBEY:

Question

You have asked whether the amendments prepared under Request No. 17315 constitute a restatement of existing law without substantive change, or otherwise.

Opinion

It is our opinion that the amendments prepared under Request No. 17315 would constitute a restatement of existing law and make no substantive change.

Analysis

The proposed amendments, which were prepared under Request No. 17315, would amend Section 16651 of the 1959 Education Code and add Section 25208.5 to the Government Code, relating to community recreation. Section 16651 of the Education Code would be amended to read:

"16651. The purposes of this chapter (commencing at Section 16651) are:

"(a) To promote and preserve the health and general welfare of the people of the State and to cultivate the development of good citizenship by provision for adequate programs of community recreation.

"(b) To authorize *public corporations or districts having powers to provide recreation*, cities, counties, cities and counties, ~~public corporations or districts having powers to provide recreation~~ and public school districts to organize, promote, and conduct such programs of community recreation as will contribute to the attainment of general educational and recreational objectives for children and adults of the State."

Section 25208.5, to be added to the Government Code, would provide:

"25208.5. The board of supervisors of a county has all of the powers to provide for community recreation which are granted to the governing board of a public authority by Chapter 6 (commencing with Section 16651), Division 12 of the Education Code."

We believe that under the existing provisions of the Education Code relating to community recreation (Ed. C. Secs. 16651, et seq.) it is clear that a county has the powers of a "public authority" to provide for community recreation.

The phrase in subdivision (b) of Section 16651 of the Education Code "having powers to provide recreation" modifies only "public corporations or districts" and not "cities, counties, cities and counties." We do not believe a court would construe this section as limiting the application of the community recreation provisions of the Education Code only to those which are by some other law empowered to provide recreation.

Furthermore, it is clear from the other portions of the provisions in the Education Code on community recreation that the provisions are not limited to certain counties but apply to a county of any class (Ed. C. Secs. 16652 and 16653).

Thus, we would conclude that under existing law the county board of supervisors is authorized to provide for community recreation pursuant to the community recreation provisions of the Education Code. Therefore, we are of the opinion that the proposed new Section 25208.5 of the Government Code and the proposed amendment of Section 16651 of the Education Code would constitute a restatement of existing law without substantive change.

Very truly yours,

RALPH N. KLEPS

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are a number of city annexations pending wherein long "fingers" are being extended out from the annexing city to reach territory with high assessed valuations, which territory is annexed to the city for school and other purposes. Such a procedure has a serious financial impact upon small, outlying school districts to the detriment of the educational program offered by such districts to the children therein. Such outlying districts have at present no way of effectively objecting to this drastic reduction of their tax base and accompanying reduction in the educational program of the districts. To prevent the lowering of the quality and scope of the educational program offered children of these districts, it is necessary that this act take effect immediately."

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
3021 STATE CAPITOL, SACRAMENTO 14, June 11, 1959

Hon. Ronald G. Cameron
Senate Chamber

Alcoholic Beverage Licenses—No. 17395

DEAR SENATOR CAMERON:

Question

You have called our attention to the language on page 1, lines 7 to 10, inclusive, of Assembly Bill No. 2260, as amended in Senate May 26, 1959, and have asked whether this language would remove a licensee under an on-sale beer and wine license for a bona fide public eating place from supervision of the Department of Alcoholic Beverage Control and from other laws and rules relating to distances of licensed alcoholic beverage premises from schools, churches, and playgrounds.

Opinion

In our opinion the answer to your question is in the negative.

Analysis

The language in question appears in the first paragraph of Section 23820 of the Business and Professions Code, as proposed to be amended by the bill. This section, as so amended, would read, in part, as follows:

"The department may make all rules consistent with the provisions of Section 22 of Article XX of the Constitution, or the provisions of this division, necessary to carry into effect the provisions of this article, and to restrict the issuance of alcoholic beverage licenses, including seasonal licenses, *but not including beer, off-sale beer and wine, on sale beer and wine for bona fide public eating places*, beer and wine wholesaler's, and wine grower's licenses, to such number in any county as the department shall determine is in the interest of public welfare and morals, convenience, or necessity." (Emphasis added)

In our opinion it is clear that the only effect of the above language would be to prohibit the department from restricting, by rule, the number of on-sale beer and wine licenses issued for bona fide public eating places. Licensees under such licenses would be subject to regulation by the department in the same manner as other licensees and would be subject to other laws and rules relating to distances of alcoholic beverage premises from schools, churches, and playgrounds.

It might be noted that in addition to the above provision, the bill would also provide that on-sale beer and wine licenses for bona fide public eating places shall not be included in the premise count which determines the limitation on the number of on-sale general licenses.

Very truly yours,

RALPH N. KLEPS
Legislative Counsel

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 12, 1959

To the Honorable Members of the Senate of the State of California:

I am returning, herewith, without my signature, Senate Bill No. 637, an act relating to water appropriated for gold mining purposes.

My objections to this bill are as follows:

This bill provides that when water appropriated for mining purposes is not used due to federal economic limitations on gold disposal or other hardship cases, the applicable forfeiture period of three years now in the Water Code shall be extended for not more than 10 years.

The exception to California's water law which would have been provided for under this bill might adversely affect state water development by allowing water to be reserved for mining uses when it might be urgently needed for some other more beneficial use.

While enactment of such legislation might be of assistance to a number of mining interests throughout the State, it would be detrimental to the construction of those projects which are urgently needed in various portions of the State. We cannot afford the luxury of continuing to reserve water for such purposes when many areas of the State are being hampered by lack of an adequate water supply.

It is also understood that the Boards of Supervisors of Amador and El Dorado Counties, and the City of Plymouth, have expressed opposition to this bill for the reasons I have indicated.

In addition, it appears that in most instances existing law is adequate to permit granting necessary relief when merited.

I am, therefore, returning Senate Bill No. 637 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Message read.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 15, 1959

To the Senate of the State of California:

I am transmitting to you, herewith, a copy of a message with reference to Senate Bill No. 1074, entitled "An act to amend Section 1050 of the Penal Code, relating to continuances in criminal cases, declaring the urgency thereof, to take effect immediately."

This bill, with my message relative thereto, I, through my legislative secretary, delivered to your body on the thirteenth day of June, 1959, at which time your honorable body had adjourned for the day but not for the session.

Respectfully,

EDMUND G. BROWN, Governor

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, June 13, 1959

To the Honorable Members of the Senate of the State of California:

I am returning, herewith, without my signature, Senate Bill No. 1074, an act relating to continuances in criminal cases.

My objections to this bill are as follows:

Senate Bill No. 1074 would require a mandatory continuance of a criminal case where the defendant is represented by an attorney who is a member of the State Legislature, provided the defendant consents thereto. Continuance would extend throughout the legislative session and 30 days thereafter. It would also apply during such times as a Member of the Legislature is serving on a legislative committee.

This measure could unduly delay the trial of criminal matters for a period exceeding six months. The ends of justice require that there be a speedy disposition of criminal cases. Our law declares that such cases should be set for trial not later than 30 days after the date of entry of the plea of the defendant, and should not be extended unless it can be shown that the ends of justice would require such extension. Extended litigation makes it more difficult to secure witnesses, and dims the recollection of facts involved in testimony produced in court.

The present law attempts to take cognizance of the plight of attorney-legislators by granting them a 30-day continuance if the Legislature is in session or if a legislative committee is meeting within seven days of the date set for the appearance of the defendant in court. Legislators who are attorneys are thus given some consideration.

I am not unmindful of the fact that attorneys who are legislators suffer financially in the practice of law because of their legislative duties. I am in favor of higher remuneration for legislators because of this fact. In rendering public service they, as well as other members of the Legislature, must, of necessity, take time away from their private endeavors which results in a loss of income to them.

However, I am a firm believer that defendants should be given a fair and *speedy* trial. This measure could result in delays of justice.

I am, therefore, returning Senate Bill No. 1074 without my signature.

Respectfully submitted,

EDMUND G. BROWN, Governor

Message read.

Senate Bill No. 1074 ordered to the unfinished business file.

Sec. 46.5. Section 7119 of said code is amended to read:

7119. If the total amount allowed county school service funds under Article 2 (commencing with Section 7001) of this chapter is less than the amounts provided by Section 7001 the balance shall be added to the balances resulting from the application of Sections 7019, 7109.43, 7112, 7113, and subdivision (b) of Section 7121.2. The total of such balances shall be used as follows:

(a) First, to increase proportionately the allowances made to which Section 7115 applied. The increased allowances shall not exceed the amounts computed under Articles 5, 6, 7, 8, 9, 11, and 11.1 of this chapter. The increase for each elementary, high school, or junior college district shall be an amount that bears the same ratio to the total balance as the amount of equalization aid allowed such district bears to the total amount of equalization aid allowed to all districts.

(b) Second, to restore, in the order herein listed, the amounts reduced under Sections 7109.41, 7109.42, 7116, and subdivision (a) of Section 7019.

(c) [Thereafter, to allow any remaining balance as additional state equalization aid to the districts that were allowed state equalization aid pursuant to Article 11 of this chapter during the then current fiscal year. The amount of additional state equalization aid allowed each such district for each unit of average daily attendance shall be determined by dividing such remaining balance by the average daily attendance of all districts receiving equalization aid.]

Thereafter, to allow any remaining balance as additional state aid to all of the districts. The amount of additional state aid allowed each such district for each unit of average daily attendance shall be determined by dividing such remaining balance by the average daily attendance of all districts.

Should the balance be sufficient to provide in excess of five dollars (\$5) per unit of average daily attendance to such districts, then that part of the balance which would produce such excess shall be apportioned to all districts which receive equalization aid on the basis of average daily attendance."

**STATEMENT BY SENATOR RICHARDS FOR INCLUSION
IN SENATE JOURNAL, JUNE 16, 1959**

I have requested this Journal entry showing that my absence from the Senate floor on June 16, from 3:30 p.m. to 4:20 p.m. was unavoidable because I had to take my wife to the hospital, entering her at 4 p.m. for an operation.

During this time, several bills came to a vote, including the Budget Bill (Assembly Bill No. 800) and the following tax bills:

Assembly Bill No. 1171—Alcoholic Beverages

Assembly Bill No. 1173—Horse Racing

If I had been present, I would have voted aye on each bill, although in each instance I favored the form of such bills as they originally passed from the Assembly.

It should be further noted that, as to the cigarette tax measure (Assembly Bill No. 1172), passed by the Senate on a prior legislative day, I voted no on the free conference report because, again, I favored the form of this measure as it originally passed the Assembly, feeling that, if we are to impose a tax of this type, the State should obtain the full potential, and this is not done (neither is it uniformly fair) when a stamp tax method is used, and when cigars and other tobacco products are exempted. On the theory that these should have been included, my vote sought a further free conference on the subject.

**CONSIDERATION OF DAILY FILE (RESUMED)
UNFINISHED BUSINESS (RESUMED)**

Senate Resolution No. 128

Relative to the accounting procedures and processes used in connection with the State Printing Fund, inventory procedures, and the cost estimating and billing procedures of the State Printer.

WHEREAS, The Senate Interim Committee on State Printing (SR 131—1949), reported that many deficiencies in operating procedures existed in the State Printing Plant, that accounting controls were lacking, that cost estimates of the State Printer on jobs for other state agencies in many instances varied to considerable degree with final cost estimates, and were frequently considerably higher than would be charged for the same job by a commercial printer; and

WHEREAS, The conclusions of the Advisory Board to the Senate Interim Committee, in part, were that there must be printing control in State Government, a complete audit and inventory of the State Printing Office, and further study of its cost and accounting procedures and review of job specifications; and

WHEREAS, The Auditor General in his report of examination of the State Printing Fund, dated April 3, 1958, made to the Joint Legislative Audit Committee, noted a

number of generally accepted principles of accounting were not observed or consistently applied, and pointed out further that excesses of billings over cost have been credited to an accumulated earnings account and these excesses, without authorization, have been used to augment the capital of the State Printing Fund even though Section 13551 of the Government Code provides that cost (billing prices) fixed by the State Printer shall recover costs, including depreciation; and

WHEREAS, The audit report indicated deficiencies in internal control with respect to operating expenses for the printing, duplicating and document sections; and

WHEREAS, Recent studies of printing estimates indicate that accepted principles of cost distribution and proper accounting controls are lacking; now therefore, be it

Resolved by the Senate of the State of California, That the Joint Legislative Budget Committee be instructed to outline and survey the problem areas in the State Printing Plant and that the Joint Legislative Budget Committee be requested to call for proposals, including cost estimates, from qualified machine systems companies for installation of an accounting and cost analysis system which will make possible reasonable comparison between operation of the State Printing Plant and costs and operations of commercial printing plants. A report outlining the corrective measures required and taken to overcome the present deficiencies occurring in the State Printing Plant, should be submitted by the Joint Legislative Budget Committee to the Legislature not later than January 15, 1960; and be it further

Resolved, That the Secretary of the Senate be instructed to transmit a suitable copy of this resolution to the Joint Legislative Budget Committee.

Resolution read.

There exists a shortage of parking and student activity facilities on the campuses of the various state colleges. The Federal Government is offering to guarantee the purchase of revenue bonds for such purposes at a favorable rate of interest. The State is currently constructing residence halls partially financed from this source. To insure that these presently financed facilities can be kept completely filled so as to insure repayment of the loans, parking facilities are needed and can be financed within the amount of the original loan. These parking facilities for dormitory residents should be available as close to the time the residence halls are completed as possible. The estimated completion date of most of the residence halls is September 1, 1959. Therefore it is necessary to commence work on the parking facilities by July 1, 1959.

LETTER OF TRANSMITTAL

JOINT LEGISLATIVE COMMITTEE ON AGRICULTURAL AND LIVESTOCK PROBLEMS
CALIFORNIA LEGISLATURE, June 16, 1959

*To the President of the Senate
The Speaker of the Assembly
And Other Members of the Senate and Assembly*

The Joint Interim Committee on Agricultural and Livestock Problems, initially created by Senate Concurrent Resolution No. 51 (Res. Ch. 141) Regular Session of 1945, reconstituted at succeeding regular sessions and presently functioning pursuant to the provisions of Senate Concurrent Resolution No. 123 (Res. Ch. 338) Regular Session of 1957, transmits for the information of the Legislature, a report entitled "A Cost Study of Cannery Operations at Department of Mental Hygiene Hospitals for 1958."

At a meeting held in Sacramento on September 6, 1957, called to act upon recommendations presented by the northern and southern subcommittees on capital outlay items a question was raised regarding the justification for continuance of the canneries in Department of Mental Hygiene Hospitals, particularly in view of recent changes in treatment procedures. The full committee after discussing this matter recommended that the Department of Mental Hygiene make a complete cost study of the operation of canneries maintained by the department and that a report of the study be submitted.

This report, prepared by the Department of Mental Hygiene, shows for example that even in the light of recent changes in treatment procedures the operation of canneries at the various Department of Hygiene institutions continues to be a very definite financial asset to the State of California.

Respectfully submitted,

PAUL L. BYRNE

Letter of transmittal ordered printed in the Journal and the report in the Appendix to the Journal.

MOTION TO PRINT COPIES OF THE REPORT OF THE JOINT INTERIM COMMITTEE ON AGRICULTURE AND LIVESTOCK PROBLEMS

printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE
STATE CAPITOL, SACRAMENTO, June 12, 1959

*Mr. J. A. Beek, Secretary of the Senate
State Capitol, Sacramento, California*

DEAR MR. BEEK: This will acknowledge receipt of your letter of June 1st trans-
mitting Senate Concurrent Resolution No. 72.

I am thoroughly in accord with the spirit of the resolution. I have delayed
replying to your letter in order to investigate past practices. As far as I am
able to ascertain, the only situation in which the Finance Department has treated
a statute as unconstitutional is the single situation of the application of Govern-
ment Code Section 13370 to the selection of textbooks. This position was based
upon several opinions of the Attorney General, going back a long way. The first of
these was an opinion of Attorney General Webb rendered to the then Superintend-
ent of Public Instruction on July 25, 1912. Attorney General Webb reaffirmed
this conclusion in a subsequent opinion to Administrative Adviser Lentz, dated
September 15, 1937, which was amplified under date of November 8, 1937, in an
opinion to the then attorney for the Department of Finance (Mr. Shadle).

As you know this question is presently involved in litigation pending in the
Supreme Court of California, the case being referred to in the resolution.

Sincerely,

BERT W. LEVIT, Director of Finance

WHEREAS, His professional abilities won early recognition with his first major assignment as assistant engineer on bridge and dam construction and highway relocation in connection with the \$300,000,000 Catskill Aqueduct; and

WHEREAS, Returning to the Pacific Northwest in 1916, Mr. McCoy held various positions with Washington, North Dakota, and the United States Bureau of Public Roads before coming to work for the State of California in 1927; and

WHEREAS, During the succeeding years his exceptional administrative ability resulted in rapid advancement in the California Division of Highways, until in 1943 he was named Chief of the Division by Governor Earl Warren's Director of Public Works, Charles H. Purcell; and

WHEREAS, As State Highway Engineer for the past 16 years, George McCoy has been in charge of the vast expansion of the State Highway System representing the expenditure of some \$2,500,000,000, and involving the construction of 2,300 miles of multilane divided highways; and

WHEREAS, His accomplishments were accorded nationwide recognition on December 1, 1958 when the American Association of State Highway Officials conferred on him the Thomas H. MacDonald Memorial Award for outstanding service in highway engineering; now, therefore, be it

Resolved by the Senate of the State of California, That the Members take this opportunity to commend George T. McCoy for his long and distinguished career in public service, and to extend their sincere and hearty good wishes for his future health and happiness; and be it further

Senate Resolution No. 169

Relating to the distinguished service of Bartley Walter Cavanaugh

WHEREAS, The Members of the Senate of the State of California and their predecessors for many years have been the recipients of unusual courtesies and kindnesses on the part of Bartley Walter Cavanaugh, City Manager of the City of Sacramento; and

WHEREAS, It seems fitting and proper that the Senate should give an official recognition to the unusually successful career of this distinguished administrator; and

WHEREAS, Bartley Walter Cavanaugh is a native of the City of Sacramento, born in a home that was situated where the present Post Office stands, directly across the street from his present office, an office to which he was appointed in 1946; and

WHEREAS, Bartley Walter Cavanaugh, the sixth City Manager of the City of Sacramento, has served longer in this position than any of his predecessors, during all of which time—approximately 13 years—he has built up for himself an enviable reputation in the field of public administration; his conspicuous accomplishments being, among others: First: The remarkably solvent condition of his native city in that, with a bonding capacity of \$53,000,000, it is committed to only \$8,000 of general obligation bonds—this in spite of the great number of capital investments which have been made and the great increase in city personnel and services; Second: The excellent way in which the city services function, the high morale of

city employees resulting from his refusal to tolerate inefficiency and his prompt and generous recognition of good service; and

WHEREAS, The Sacramento Junior Chamber of Commerce saw fit to bestow its coveted Good Government Award upon Bartley Walter Cavanaugh in May, 1959, thus manifesting the recognition which is generally accorded him by those most closely familiar with city affairs; and

WHEREAS, While Bartley Walter Cavanaugh has seen the City of Sacramento grow from a population of 139,000 when he assumed the responsibility of city manager to an estimated population of 180,000 as of this date, he has found time to indulge three wholesome hobbies—playing golf, attending sports events and constantly visiting all the city facilities and fraternizing with all city employees; now, therefore, be it

Resolved by the Senate of the State of California, That it congratulates Bartley Walter Cavanaugh upon his successful career and the outstanding and distinguished service he has rendered to his native community; and be it further

Resolved, That the Secretary of the Senate be and he is hereby directed to present a suitably prepared copy of this resolution to Bartley Walter Cavanaugh.
